REASON FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

As prior art, Chang et al. (US 6,111,673) teaches an optical header 210 used for routing, prior art fails to teach converting route information to allocated frequency mixes at the transmitter end producing a mix of frequencies for a respective frequency mix allocated to a particular route signal that represents the route information. These features are claimed in independent claims 1, 2, 7 and 8 and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
